VIII. COMPREHENSION (5x1=5)

Depuis quelques années, le vélo électrique connaît un essor fulgurant en France. On en voit de plus en plus circuler dans les rues, empruntant les pistes cyclables et sillonnant les campagnes. Ce moyen de transport écologique et économique séduit de plus en plus d'adeptes. Plusieurs facteurs expliquent cette popularité grandissante. Tout d'abord, l'amélioration de la technologie a permis de baisser les prix des vélos électriques et d'augmenter leur autonomie. De plus, les aides financières gouvernementales incitent à l'achat de ce type de vélo.

L'essor du vélo électrique s'inscrit également dans une tendance plus globale de prise de conscience écologique. De plus en plus de personnes cherchent à réduire leur empreinte carbone et à se déplacer de manière plus respectueuse de l'environnement. Le vélo électrique offre une alternative intéressante à la voiture, notamment pour les trajets courts en ville.

Cependant, son utilisation pose certains défis. La cohabitation avec les piétons et les cyclistes traditionnels requiert une vigilance accrue de la part de tous les usagers. De plus, la question de la sécurité des cyclistes électriques est un enjeu important, et le développement d'infrastructures adaptées est crucial. Malgré ces défis, le vélo électrique a le potentiel de révolutionner la mobilité urbaine et de contribuer à un avenir plus durable.

Répondez aux questions:

1. Quel est le sujet principal du passage?
2. Quelles sont les raisons principales de l'essor du vélo électrique?
3. Comment le vélo électrique s'inscrit-il dans une tendance plus globale?
4. Quels sont les défis liés à l'utilisation du vélo électrique?
5. Selon le passage, quel est l'avenir du vélo électrique?

16. How many wonderfull doors have science and technology laid open before modern man! Several appliances and instruments that had been unimagivable till recently are available to us now. The internet and TV are some among them which are really double -edged swords. These devices assist or harm people according to the way they use them. Of course, they have opened before us the wide world of knowledge. They introduce us to a new world where knowledge and fun come together.
