4. Read the following passage and answer the questions given below.

A European study revealed that 100% fruit and vegetable juices are as effective as their whole fruit or vegetable counterparts in reducing risk factors related to certain diseases. The conclusion is the result of the study designed to question traditional thinking that 100% juices play a less significant role in reducing risk factors for both cancer and cardio-vascular disease than whole fruits vegetables.

Juices are comparable in their ability to reduce risk vis-à-vis their whole fruit or vegetable counterparts, according to several researchers in the United Kingdom who conducted the literature review. These researchers analysed a variety of studies that looked at risk reduction attributed to the effects of both fibre and anti-oxidants. As a result they determined that the positive impact fruits and vegetables offer come not from the fibre but also from the whole fruit and vegetables.

The researchers added that the positioning of juices as being nutritionally inferior to whole fruits and vegetables in relationship to chronic disease development is "unjustified" and the policies that suggest otherwise about fruit and vegetable juices should be re-examined.

1. A person who studies a subject methodically to discover facts. (1)
(Choose a right word from the passage)

3. What is the outcome of U.K researcher's studies on various literature review conducted in this area? (2)

IV A Read the following comprehension passage and answer the questions

(5x1=5)

Experiments are sometimes made by experts to find out how many errors people make in their statements. Here is one experiment which was tried. Some students at a university were shown on a screen a picture of a bullfight. They were then asked to write a short account of what they had seen. When this was finished, they were told to put a number on every statement made.

1. If they were fairly sure about it and 2. If they were prepared to swear to the statement on oath. Every student had at least ten percent error in the statements he was prepared to swear on oath and considerably more than ten percent in the other group. Here, for example, was one mistake. A student saw the bull had its tongue out. Yet when he was shown the picture again, he was that the bull's mouth was closed, but that, because its head turned to the side, the ear looked like the tongue. So whenever you are arguing with someone about a point, remember that there is quite a good chance that you are wrong, however, confident you feel about it.

1. What was the aim of the experiment tried at the university?
2. What were the students shown on the screen?
3. What were they asked to do when it was shown?
4. What was the extent of errors in their statements?
5. One student made a mistake in regard to the position of the bull's -----.

JEANNE D' ARC.

Tout le monde autour de vous, connaît le nom de Jeanne d'Arc. Qui est-elle ? Jeanne d'Arc est née à Domrémy, en Lorraine, le 6 janvier 1412. Ses parents étaient paysans. Elle passa les premières années de sa vie à garder, aux champs, les moutons de son père. Il faut vous dire qu'à cette époque, notre pays, la France, était presque entièrement prisonnier des Anglais. La France était en guerre contre l'Angleterre depuis bientôt cent ans. Notre armée n'existait plus, nous n'avions pas de roi et les soldats pas de chef. C'est à treize ans que Jeanne crut pour la première fois entendre des voix. Que lui disaient ces voix ? Tout simplement, de chasser les Anglais hors de France et de faire couronner roi, à Reims, le dauphin Charles VII.

Elle revêt l'armure des chevaliers, monte à cheval et conduit ses maigres troupes vers la ville d'Orléans encerclée par une solide armée anglaise. 8 mai 1429 : elle a 17 ans. Jeanne, bien droite sur son cheval, son étendard au poing, donne aux Français un si beau courage qu'ils gagnent. Elle veut ensuite conduire Charles à Reims pour qu'il soit sacré Roi de France. À la tête de ses soldats, après de nombreuses batailles, elle réussit: le 17 juillet 1429 notre pays a de nouveau un roi: Charles VII. L'année suivante, elle est faite prisonnière et vendue aux Anglais pour dix mille pièces d'or. Jeanne est conduite à Rouen et enfermée dans la prison du château. Elle est condamnée à être brûlée vive, comme une sorcière. Elle est morte le 30 mai 1431, brûlée sur la place du Vieux Marché, à Rouen. Elle avait dix-neuf ans. Elle est morte, abandonnée de tous, de son Roi, de ses soldats, alors qu'elle avait sauvé la France. Mais, grâce à l'exemple qu'elle a donné, les Français reprennent courage et en quelques années, chassent les Anglais hors du pays.

- a) Quel âge Jeanne d'Arc avait-elle quand elle était morte?
- b) Quelle est sa date de naissance ?
- c) Qui les français chassent-ils de France après la mort de Jeanne d'Arc ?
- d) Comment va s'appeler le Roi de France ?
- e) Dans quel château rencontre-t-elle Charles VII ?
- f) Comment est morte Jeanne d'Arc ?
- g) Pour combien de pièces d'or, Jeanne est-elle vendue aux anglais ? .
- h) Que veut faire Jeanne après avoir délivré Orléans ?
- i) Qui essaye de délivrer Jeanne aux anglais?
- j) A quelle date délivre-t-elle Orléans ?

SECTION - B (Reading Comprehension)

II. A) Read following passage and answer the questions: (10x1=10)

A close look at the facts relating to political interference in administration shows that it is not a one-way process. There is often a nexus between power-hungry and corrupt politicians and civil servants with convenient principles. Many civil servants are only too anxious to oblige the politicians, and then cash the obligation when they need some special favour. So the attitude of self-righteousness adopted by the civil service is sometimes only a way of covering their own flaws by blaming others.

Every now and then some retired civil servant come out with his memoirs, painting a glorious picture of the heights of administrative efficiency reached during his reign. There is often the suggestion that had there not been so much political interference, things would have been even more fantastic. It is not unusual for the self-styled hero to blame not only interfering politicians but also

fellow civil servants who were idiots or crooks, for his failures. This attitude of smug self-satisfaction is, unfortunately, developed during the years of service. Self-preservation rather than service is encouraged by our whole system of rules and procedures.

The remedy has to be drastic and quickly effective. The over-protection now granted to civil servants must end. Today to remove an erring civil servant is just not possible. And the only thing that the highest authority in the government, both in the state and at the centre, can do is to transfer an official from one job to another.

The rules for taking disciplinary action are so complicated that, in the end, the defaulting civil servant gets away, and gets his full emoluments even for the period of the disciplinary proceedings, thus asking it a paid holiday for him.

The result is that the administration has become rule-oriented and not result-oriented. Action is possible against the official who takes some interest in his work, but no action is ever taken against a person who does not deliver the goods. If the country is to adopt a result-oriented approach, it is necessary to link job performance with job retention.

1. The facts relating to the problem interference indicate that:
 - a) honest bureaucrats are always being troubled by politicians

 - b) is dishonest and conceals the facts
 - c) is very difficult to maintain because of opposition
 - d) does not really help the public get fair treatment.

3. Civil servants who write their memories after retiring:
 - a) claim that they would have achieved outstanding success if interference had not come in the way
 - b) prove that constant political interference made it impossible for them to do anything properly.
 - c) complain that the credit for their achievements goes to dishonest politicians
 - d) prove that people of inferior quality in the civil service bring about interference

4. The existing system of administration seems to encourage civil servants:
 - a) to become self-styled heroes and boss over others
 - b) to present a glorious picture of the administration
 - c) to become self-centred and concerned mainly about their own gain
 - d) to become self-righteous and flight back against corrupt politicians

 - b) a lack of control over the power of politicians

 - d) rules should be simplified so that there is less scope for misuse

 - d) a conflict between central government and state government interests can arise

 - a) civil servants get a lot of extra benefits

B) Write a precis on the following passage by reducing it to one third of its length. (10)

Without a knowledge of grammar it is impossible for you to write correctly; and, it is mere accident if you speak correctly. And pray, bear in mind that all well-informed persons judge a man's mind (until they have other means of judging) by his writing or speaking. The labour necessary to acquire this knowledge is indeed not trifling. Grammar is not like Arithmetic, a science consisting of several distinct departments, some of which may be dispensed with. It is a whole, and the whole must be learned, or no part is learned. The subject is abstruse; it demands much reflection and much patience but, when once the task is performed, it is performed for life, and in every day of that life it will be found to be a source of pleasure or of profit or both together. And, what is the labour? It consists of no bodily exertion; it exposes the student to no cold, no hunger, no suffering of any sort. The study need subtract from the hours of no suffering of any sort. The study need subtract from the hours of no business, nor, indeed, from the hours of necessary exercise. The hours usually spent in the tea and coffee shops and in the mere gossip which accompany them-these wasted hours, of only one year, employed in the study of English grammar would make you a correct speaker writer for the rest of your life.

I learned grammar when I was a private soldier on the pay of six pence a day. The edge of my berth was my seat to study in, my knapsack was my bookcase; a bit of board lying on my lap was my writing table; and the task did not demand anything like a year of my life. And if I under such circumstances, and without parents or friends to advice or encourage me, accomplished this undertaking, what excuse can there be for any youth, however poor, however pressed with business, or however circumstanced as to room or other conveniences?
