5. The branch struck him hard and lay him unconscious.

4. Read the following passage and answer the questions given below.

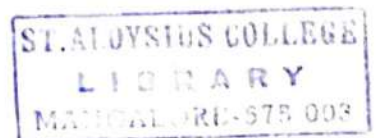

A European study revealed that 100% fruit and vegetable juices are as effective as their whole fruit or vegetable counterparts in reducing risk factors related to certain diseases. The conclusion is the result of the study designed to question traditional thinking that 100% juices play a less significant role in reducing risk factors for both cancer and cardio-vascular disease than whole fruits vegetables.

Juices are comparable in their ability to reduce risk vis-à-vis their whole fruit or vegetable counterparts, according to several researchers in the United Kingdom who conducted the literature review. These researchers analysed a variety of studies that looked at risk reduction attributed to the effects of both fibre and anti-oxidants. As a result they determined that the positive impact fruits and vegetables offer come not from the fibre but also from the whole fruit and vegetables.

The researchers added that the positioning of juices as being nutritionally inferior to whole fruits and vegetables in relationship to chronic disease development is "unjustified" and the policies that suggest otherwise about fruit and vegetable juices should be re-examined.

1. A person who studies a subject methodically to discover facts. (1)
(Choose a right word from the passage)
2. What is the outcome of European study regarding fruit and vegetable Juices? (2)
3. What is the outcome of U.K researcher's studies on various literature review conducted in this area? (2)
5. You are elected as the Secretary of Debating Association of your college and you are expected to address its members during the inauguration of the association. Give a brief self-introduction on this occasion and welcome them giving the aims and objectives of the association. (5)
6. Give one word substitutes for the following. Choose the appropriate answers from words given in parenthesis. (1x5=5)
 1. The European colonizers imagined native Carribeans as eating human flesh.
 2. The students laughed quietly at the silly mistakes made by the English teacher.
 3. The classroom was in a total state of confusion.
 4. He took some time to think deeply over the matter.
 5. The Maths teacher became rigid with anger.

words each:

1. How does Keki N Daruwala personify Indian English in the poem 'The Mistress'?
2. What are the agnostic elements used in the poem 'The Gods Wake Up'?
3. Explicate the poem 'Ode to a Large Tuna in the Market' with special emphasis on the literary devices used in it.
4. Explain the importance of the last words "it lasted long" from the poem 'The Season of Phantasmal Peace'.

C Answer any **ONE** of the following questions in about 300-350 words

(1x10=10)

each:

1. Walcott considers 'The Season of Phantasmal Peace' as "the equivalent of prayer, a vision of peace that must be heard continually." Justify.

III A Answer the following questions:

1. Whom does Algernon think should set an example for the upper class?
2. Where has Cecily recorded her engagement to Algernon 'Ernest'?
3. Who is Jack's real mother?
4. What is Jack's birth name?
5. How did Miss Prism recognize the handbag?
6. Jack makes up a story about his brother Ernest dying in -----.
7. When does Lady Bracknell start liking Cecily?
8. Who lost Jack when he was a baby?
9. What two things, according to Aunt Augusta, are not the same and rarely go together?
10. On what grounds does Jack Worthing, Cecily's guardian, refuse to allow Cecily and Algernon's engagement?

B Explain the context of any TWO of the following quotations in about 200-250 words (2x5=10)

1. Yes. But why does your aunt call you her uncle? 'From little Cecily, with her fondest love to her dear Uncle Jack.' There is no objection, I admit, to an aunt being a small aunt, but why an aunt, no matter what her size may be, should call her own nephew her uncle, I can't quite make out. Besides, your name isn't Jack at all; it is Ernest.
2. Lady Bracknell, I admit with shame that I do not know. I only wish I did. The plain facts of the case are these. On the morning of the day you mention, a day that is for ever branded on my memory, I prepared as usual to take the baby out in its perambulator.
3. So I know my constitution can stand it. If you are not quite sure about your ever having been christened, I must say I think it rather dangerous your venturing on it now. It might make you very unwell. You can hardly have forgotten that someone very closely connected with you was very nearly carried off this week in Paris by a severe chill.

C Sketch the character of any TWO of the following in about 200-250 words:

(2x5=10)

1. Algernon Moncrieff
2. Gwendolen Fairfax
3. Lady Bracknell

D Answer any ONE of the following question in about 300-400 words each:

(1x10=10)

1. How is the gulf between the upper, middle and lower classes represented in the play 'Importance of being Earnest'?
2. Explain the pun in the title. Who is being Earnest in this play? Do Gwendolen and Cecily prefer having husbands named Ernest to having earnest husbands?

IV A Read the following comprehension passage and answer the questions
(5x1=5)

Experiments are sometimes made by experts to find out how many errors people make in their statements. Here is one experiment which was tried. Some students at a university were shown on a screen a picture of a bullfight. They were then asked to write a short account of what they had seen. When this was finished, they were told to put a number on every statement made.

1. If they were fairly sure about it and 2. If they were prepared to swear to the statement on oath. Every student had at least ten percent error in the statements he was prepared to swear on oath and considerably more than ten percent in the other group. Here, for example, was one mistake. A student saw the bull had its tongue out. Yet when he was shown the picture again, he was that the bull's mouth was closed, but that, because its head turned to the side, the ear looked like the tongue. So whenever you are arguing with someone about a point, remember that there is quite a good chance that you are wrong, however, confident you feel about it.

1. What was the aim of the experiment tried at the university?

2. What were the students shown on the screen?

3. What were they asked to do when it was shown?

4. What was the extent of errors in their statements?

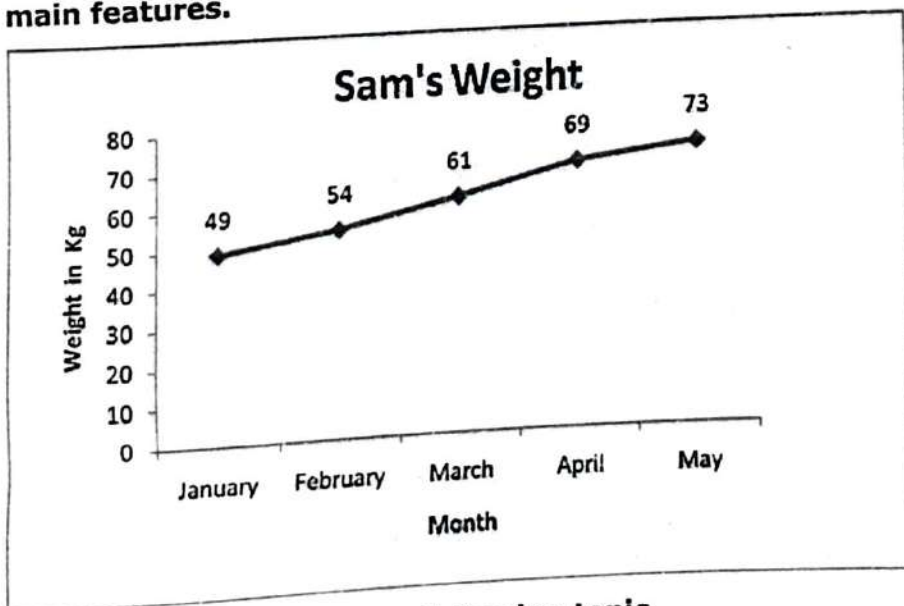

5. One student made a mistake in regard to the position of the bull's -----.

JEANNE D'ARC.

Tout le monde autour de vous, connaît le nom de Jeanne d'Arc. Qui est-elle ? Jeanne d'Arc est née à Domrémy, en Lorraine, le 6 janvier 1412. Ses parents étaient paysans. Elle passa les premières années de sa vie à garder, aux champs, les moutons de son père. Il faut vous dire qu'à cette époque, notre pays, la France, était presque entièrement prisonnier des Anglais. La France était en guerre contre l'Angleterre depuis bientôt cent ans. Notre armée n'existait plus, nous n'avions pas de roi et les soldats pas de chef. C'est à treize ans que Jeanne crut pour la première fois entendre des voix. Que lui disaient ces voix ? Tout simplement, de chasser les Anglais hors de France et de faire couronner roi, à Reims, le dauphin Charles VII.

Elle revêt l'armure des chevaliers, monte à cheval et conduit ses maigres troupes vers la ville d'Orléans encerclée par une solide armée anglaise. 8 mai 1429 : elle a 17 ans. Jeanne, bien droite sur son cheval, son étendard au poing, donne aux Français un si beau courage qu'ils gagnent. Elle veut ensuite conduire Charles à Reims pour qu'il soit sacré Roi de France. À la tête de ses soldats, après de nombreuses batailles, elle réussit: le 17 juillet 1429 notre pays a de nouveau un roi: Charles VII. L'année suivante, elle est faite prisonnière et vendue aux Anglais pour dix mille pièces d'or. Jeanne est conduite à Rouen et enfermée dans la prison du château. Elle est condamnée à être brûlée vive, comme une sorcière. Elle est morte le 30 mai 1431, brûlée sur la place du Vieux Marché, à Rouen. Elle avait dix-neuf ans. Elle est morte, abandonnée de tous, de son Roi, de ses soldats, alors qu'elle avait sauvé la France. Mais, grâce à l'exemple qu'elle a donné, les Français reprennent courage et en quelques années, chassent les Anglais hors du pays.

- a) Quel âge Jeanne d'Arc avait-elle quand elle était morte?
- b) Quelle est sa date de naissance ?
- c) Qui les français chassent-ils de France après la mort de Jeanne d'Arc ?
- d) Comment va s'appeler le Roi de France ?
- e) Dans quel château rencontre-t-elle Charles VII ?
- f) Comment est morte Jeanne d'Arc ?

20 Life goals are something that people themselves and work hard to active. These goals could be something you personally want to achieve in your career. Such as working your way up in a company to end up in a well paid job that you are happy in. Life goals can also be personal, where people set themselves the goal of buying a house ,getting married and having a family. A further type of goal is an academic one. This could be the wish to gain a college degree or a masters. Life goals are personal to the individual who set them one person might see climbing the career ladder as more important than starting a family and getting married.

There is a debate as to whether people should actually set themselves life goals. Some people may find that the process effect on them as it provides something to work towards.

9. PQR, a manufacturing company, commenced business on 1 March making one product only, the costs for which are as follows:

Contd....3

	\$
Direct labour	5
Direct material	8
Variable production overhead	2
Fixed production overhead	5
Total production cost	20

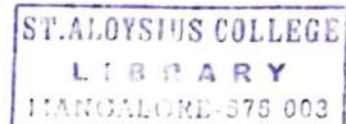

The fixed production overhead figure has been calculated on the basis of a budgeted normal output of 36,000 units per annum. The fixed production overhead incurred in March was \$ 15,000.

Selling, distribution administration expenses are:

Fixed	\$ 10,000 per month
Variable	15% of the sales value

The selling price per unit is \$ 50 and the number of units produced and sold in March were:

Production	2,000
Sales	1,500

Prepare the absorption costing and marginal costing statements of profit or loss for March. (15)

BUSINESS MATHEMATICS

Time: 3 Hours

Max. Marks: 100

SECTION - A**(10x2=20)**

1. Answer all the questions in 2 or 3 sentences each:

- Define probability.
- What is the probability of null event?
- Find how many 4 letter words can be formed out of MATHEMATICS.
- If $P(A) = \frac{1}{3}$ find $P(A')$
- What is a linear programming problem?
- Differentiate with respect to x $(x - \frac{1}{x})^2$
- Give the meaning of annuity.
- Calculate the simple interest for ₹ 20,000 at 6% for 7 years.
- Give the meaning of trade discount and cash discount.
- Write the formula for the present value of amount in compound interest.

**SECTION - B****(5x7=35)**

Answer any FIVE questions:

- What is the probability that a card drawn at random from a pack of playing cards is - a) a diamond b) a heart c) a king on a club
- A man throws a fair die. If a throw result in even number he gets ₹ 5 and if the result is odd he losses ₹ 20. Find his mathematical expectation.
- Differentiate with reference to x , $(x^2 + 1)(x^2 + 2)$.
- Differentiate the following terms with respect to x , $5x^2 - 7x + 1$.
- A bill worth ₹ 4,000 is due after 4 years. Hence, for the settlement of the bill, what investment should be made at present at 13.5% compound interest p.a.?
- A bill with face value of ₹ 3,000 is due after 3 months. It is discounted through a bank at 15% p.a. Calculate true discount, banker's discount and banker's gain.
- Solve the following L.P.P. graphically

$$\text{Max } Z = 3x + 4y$$

$$\text{Sub to, } 5x + 8y \geq 80$$

$$x \geq 2$$

$$y \leq 8$$

$$x \geq 0, \quad y \geq 0$$

SECTION - C

Answer the following questions:

9. Find the maxima and minimum value of the function

$$x^4 + 2x^3 - 3x^2 - 4x + 4$$

OR

A firm produces x units of output at a total cost $C = \frac{1}{10}x^3 - 9x^2 + 85x + 17$. Find the average cost, average variable cost and average fixed cost. Find the value of these at the level of output of 10 units.

10. Monthly income of employees follow normal distribution with mean 18000 and standard deviation 800. Find the percentage of employees with monthly income-
- i) less than 20000 ii) lies between 16000 and 17,000.

OR

a) A bag contains 6 red and 4 white balls. Two balls are drawn from the bag randomly. What is the probability that they are of the

i) same colour ii) different colour

(8)

b) Find the mathematical expectation of the number of heads obtained when two fair coins are tossed once.

(7)

11. Solve the following LPP using simplex method.

$$\text{Max } Z = 5x + 4y$$

$$\text{Sub to, } x - y \leq 1$$

$$-x + y \leq 2$$

$$x, y \geq 0$$

OR

a) National Saving Certificate of face value of ₹ 10,000 are worth ₹ 2,015 after 6 years. What is the rate of compound interest received?

(8)

b) In how many years will a deposits doubles itself at 12.5% compound interest?
